General Accessibility of Areas, Facilities and Amenities

- Service animals welcome (consistent with ADA)

The Desoto Oceanview Inn was originally constructed in 1966. Since the passage of the Americans with Disabilities Act (ADA) we have undertaken projects and implemented changes to improve accessibility. However, we may not be fully accessible to every individual with a disability depending on their particularly disability and need for accommodation. We have attempted to identify and describe features at the Desoto Oceanview Inn and its guestrooms in enough detail to reasonably permit individuals with disabilities to assess independently whether the facility meets

their own accessibility needs. However, we cannot possible list each and every feature of every room, amenity, space or element applicable under the ADA. We are also aware the individuals with disabilities are not all the same and may require different or unique accessibility features to accommodate them. We encourage dialogue with our guests and persons interested in being guests and welcome any questions or concerns that you may have. Please contact us directly with any questions, comments or concerns that you may have:
